

Send IT sees big growth for ELR shooting

By Charl Gous

Thunder, lightning and a heavy downpour hit Cape Town and surrounds while we were preparing for the final Send IT ELR (Extreme Long Range) match of 2022 on 5 November. Frantic phone calls followed as to whether the event would be rained out and deferred. Thankfully, the ominous weather forecast cleared up and we only had to deal with a thick fog that delayed the start of the match.

The wind kept pushing throughout the day, trying to move cold air and mist from Grotto Bay up the hills onto the shooting range. Gusting from 8 mph to 16 mph, shooters had to deal with a very difficult fishtail wind from behind. A fishtail wind is from behind or directly in front of the shooter, moving swiftly in an hour or more in either direction. In this case, the wind changed quickly from 5 'o clock to 7 'o clock. In such a scenario the wind speed is less important, but a change in direction has a huge impact on the bullet's final destination. It was a challenging day for ELR shooting.

Charl Gous, Match Director

Similarly, Bernard Kotze and teammate Ivan Fourie, shooting as 3% Tactical, was first placed team at the 5 November and 1 October Send IT ELR matches. Team 3% Tactical continues to excel and always has a great time. It is an honour to have these fine gents at our matches and for the friendship and assistance they impart.

Newcomers to the 5 November podium included Loutjie Hanekom, who took silver in the individual rankings and the Noodhulp Topgun team of Herman Maree and James Preyser, which secured bronze in the team division. Well done, gents. These are well deserved medals for your reloading rooms!

However, the standout performance came from Team Sonic! Nicolaas Louw (10) and Carlo Gous (12) teamed up to take on the gents and ladies. They used modest equipment by ELR standards: Nicolaas ran a 7 mm RSAUM and Carlo a .300 Winchester Magnum. Carlo made 15 impacts, including one at 1 857 m and was well supported by his teammate's nine hits.

Team Sonic placed 6th in the team division, with Carlo securing a very impressive 6th place in the individual rankings and Nicolaas 26th. These young men showed great composure and confidence behind their rifles, adhering to all safety rules and instructions without the need to be reminded. Of course, Carlo is my son, and I am extremely proud of his achievement!

Is ELR an equipment race? No, it is not that simple. As an example, young Carlo used a .300 Winchester Magnum firing the excellent 230 gr Hornady A-Tip bullets at a modest 2 735 fps. Nothing to get too excited about but paired with decent wind calls it got him on the steel plate and fighting for points alongside significantly larger calibres. A well-tuned rifle will always be competitive and when the shooter puts in the hours, even moreso.

As we look back on 2022, there is plenty to highlight, but most importantly the people: The people who come out to enjoy the day with Send IT and more importantly bring their wives, daughters and sons to experience ELR shooting is a growing and very welcome trend. The people who put in all the hard work to prepare our ranges: Hendrie Brink, Darling Steel Valley, Pieter Eksteen, PEKS Shooting Range and PC Ferreira, Karoo King of Plains Shooting Range. We thank you for all your efforts and for making your facilities available for all to enjoy.

Also, the people who help grow sports-shooting through training and affording fellow firearm enthusiasts a platform to read and learn about shootings formats: Eduardo Abril de Fontcuberta gave up a week of his time to travel from Spain to deliver a fascinating two-day ELR seminar at the Send IT ULTRA. Thank you to *On Target Africa* Owner and Publisher Louise Taylor for her tireless efforts to promote and grow this sport. Louise joins us on numerous Saturday mornings at 05:00 for a day of crazy Send IT adventures – as she does for many other disciplines across the country. Thank you for your sterling contribution on behalf of Send IT and sports-shooting in South Africa.

Lastly, and most importantly, to the competitors for arriving with a festive spirit and embracing the Send IT vibe of having fun while sharing

Send IT, ELR Shooting - event dates 2023	
Date	Format & Venue
11 February	ELR Match Darling Steel Valley
11 March	PEKS Range .22LR ELR Wellington
18 March	2-Mile Challenge Darling Steel Valley
1 April	2-Mile Challenge Darling Steel Valley
27-29 April	Send IT ULTRA Hanover, Northern Cape
2 September	PEKS Range .22LR ELR Wellington
30 September	ELR Match Darling Steel Valley
4 November	ELR Match Darling Steel Valley

Range near De Doorns, Western Cape to view their newly developed ELR range with targets out to 2.5 km and plans in place to increase it to 2-miles. A fabulous facility that can be enjoyed six days a week. More ranges mean more shooting, resulting in better shooters – an excellent prospect for the years ahead!

2023 sees Send IT introduce 2-mile events

Structured as a one-day match, shooters will engage targets from 2.5 km to 2-miles, with 18 shots covering six shots per target, not based on the hit to advance system. The format will adopt the well-established 'King' scoring formula for comparability of results. In addition, there is a strong likelihood that even more ranges will be utilised for Send IT 2-mile challenges in 2023. Look out for these announcements soon!

The Send IT ULTRA, scheduled for 27 to 29 April 2023 at the Karoo King of the Plains Shooting Rang near Hanover, Northern Cape, will be our flagship event of the year. We look forward to build on its success and attract top ELR shooters from across the country to compete in this testing two-day ELR match. We received overwhelming support for the 2022 ULTRA event from the firearm industry for which we, and most importantly the competitors, are extremely thankful. Thank you for all your contributions.

Lastly, I would like to thank the Send IT team, which is always up for a challenge, constantly innovating, assisting fellow shooters, and willing to make all of these events so resoundingly successful. You are all superstars!

Until next time ... get ready to ... Send IT!

Anyone in need of additional information can contact myself, Charl Gous, on +27 83 4696 181. Be sure to follow us on Facebook <https://www.facebook.com/Senditelrshooting> and find the link on our page to join the Send IT, ELR Shooting Telegram group where all communication is posted.

The Powder Keg are the sole distributors of the Konus rifle scopes in South Africa.

KONUS

The range is vast with highly innovative products. Introducing three of the products available:

EMPIRE 3-18x50

THE 6X ZOOM SYSTEM INNOVATION

This riflescope with **3-18x50** configuration provides you with the **excellent versatility** of a 6x **zoom system** that makes it suitable for **shooting at both short range and long distance.**

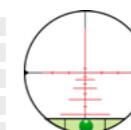

It comes with every professional feature you can think of, including the **parallax wheel** and the **illumination switch** that are positioned on the same side knob.

SPECS

3X-18X ZOOM POWER WITH 6X ZOOM SYSTEM
30MM TUBE
FULLY MULTI-COATED OPTICS
LEVEL BUBBLE
SIDE KNOB WITH PARALLAX AND ILLUMINATION ADJUSTMENTS
LOCKABLE TURRETS (RESETTABLE TO ZERO)
ENGRAVED AND ILLUMINATED 550-BALLISTIC RETICLE
DUAL COLOR ILLUMINATION (RED/BLUE)
LOCKING FAST FOCUS OCULAR
WATERPROOF AND NITROGEN FILLED
SUNSHADE INCLUDED
FLIP-UP COVERS INCLUDED
PRECISION 1/4 M.O.A. ADJUSTMENTS

TECHNICAL DATA

MAGNIFICATION x Ø OBJECTIVE: 3-18x50 Zoom

RETICLE: Illuminated 550 ballistic
FIELD OF VIEW AT 100M/YDS: 6m – 35 ft at 3X • 1.85m – 6.1ft at 18X
WEIGHT GR/OZ: 759gr – 26.8oz
LENGTH MM/INCHES: 372.8 mm – 14.68"
EYE RELIEF MM/INCHES: 6mm – 4"
EXIT PUPIL MM: 8 at 3X • 3 at 18X
CLICK VALUE M@100M IN@100YDS: 1/4 moA (25 mm)
RANGE M@100M IN@100 YDS: 1.74m – 62.8"
