Send IT, Then and Now

By Charl Gous

Send IT, ELR Shooting was established in 2019 by a group of friends with a passion for extreme long range (ELR) shooting, with the aim to promote and grow sport shooting. Since then, it has seen substantial support and growth in participation from firearm enthusiasts and is now recognised as a credible, yet challenging, ELR sports-shooting format.

Send IT matches are based on the premise that shooters want to shoot more and compete in similar atmospheric conditions as their counterparts – particularly in an environment such as the Western Cape, where weather patterns are extremely volatile.

As a group, we want to host events free of agendas, meetings, politics, and other cumbersome processes. We want to grow ELR sport shooting, across several formats, in an inviting environment where shooters can get better at making hits at extreme distances.

It is useful to review where Send IT started and what transpired over the years.

Send IT founding member Pieter Eksteen frequently reminds us of his favourite motto:

“Jou planne moet nooit opraak nie”, loosely translated as **“You should never run out of ideas”.**

In 2017 we contacted Eduardo Abril de Fontcuberta, at that stage the primary contact person for the King of 2 Miles and founding member of the most prominent ELR franchise in the world. Eduardo is a world-renowned firearm specialist and ELR expert.

Our intention was to attend a King of 2-Miles match in the USA, which never

materialised. The conversation quickly turned to Eduardo visiting South Africa to present an ELR seminar to local shooters to assist in tackling this challenging sport. We hosted Eduardo in 2018 and again in 2022 (at the Send IT ULTRA) to share his insights, expertise, and learning with fellow shooters in a comprehensive seminar.

From that moment in 2018 a lot happened, quickly. The seed was planted, Send IT was formulated, rules and procedures were documented, and plans set in motion to host and promote ELR shooting across various formats.

The first range was developed in 2019, and later named Darling Steel Valley, where we still regularly compete. Against a beautiful backdrop next to the ocean, the range is renowned for its demanding wind conditions and horseshoe-shaped landscape.

At PEKS Range, we pioneered .22LR ELR matches in South Africa. It has become a family affair filled with youngsters and grownups using rimfire rifles to take on targets as far as 500 m. The perfect platform to get to grips with advanced ballistics and understand how to calculate the correct firing solution is .22LR ELR. It is inexpensive and fun!

The Karoo King of the Plains Shooting Range was set-up to accommodate Send IT ULTRA, a testing, multi-day ELR match format. The ULTRA will once again be Send IT’s flagship match in 2024, where shooters from across the country meet at a central venue to compete for the ULTRA title. More about the 2024 ULTRA later.

In 2023, we introduced the Send IT 2-Mile Challenge, hosted at Matroosbergstasie Skietklub near De Doorns in the Western Cape, where shooters engaged targets up to 3 270 m. We have been building up

to this point over the last couple of years. There are now more shooters with ‘big’ guns, so the time was right to push the envelope and provide an official platform to engage two-mile targets. The format was designed to address concerns with the traditional single time-slot matches requiring shooters to complete a string of shots at a particular time of day.

As Send IT gained recognition, we developed relationships with international shooters and match directors. In this regard, all match information is submitted to Safety First Tactical ELRhq (SFT) to be included in SFT’s global ELR ranking tables.

Send IT, ELR Shooting - event dates 2024	
Date	Format & Venue
20 January	2-Mile Challenge Matroosbergstasie Skietklub
10 February	ELR Match Darling Steel Valley
9 March	PEKS Range .22LR ELR Wellington
16 March	2-Mile Challenge Matroosbergstasie Skietklub
13 April	2-Mile Challenge Matroosbergstasie Skietklub
2-4 May	Send IT ULTRA Hanover, Northern Cape
25 May	2-Mile Challenge Matroosbergstasie Skietklub
7 September	PEKS Range .22LR ELR Wellington
28 September	ELR Match Darling Steel Valley
2 November	ELR Match Darling Steel Valley
16 November	2-Mile Challenge FINAL Matroosbergstasie Skietklub

SFT provides informative data and ranking tables where Send IT shooters can measure their ability on a worldwide ELR ranking platform. We are proud to report that numerous Send IT shooters feature in the top quartile of SFT’s global ranking tables (light and heavy gun).

“Boy, that escalated quickly. I mean, that really got out of hand fast.”

Anchorman: The Legend of Ron Burgundy (2004)

Twenty years later, when Send IT will host 11 events in 2024, the above quote from the hilarious Will Ferrel in the 2004 movie ‘Anchorman: The Legend of Ron Burgundy’ comes to mind.

Reviewing the very busy 2024 Send IT, ELR Shooting calendar, there are two areas to highlight and discuss in more detail, namely the **2024 Send IT ULTRA** event, our flagship match of the year, and the further development of the **Send IT 2-Mile Challenge** as a series of matches.

Send IT ULTRA Event, 2 to 4 May 2024

The **ULTRA** event has gained in popularity, necessitating minor changes to the shooting format to accommodate more shooters. The event will once again be held at the beautiful Karoo King of the Plains Shooting Range over three days. Days 1 and 2 are dedicated to a team competition. On Day 3, the top performing individual shooters will fight it out for the coveted **ULTRA** title. With minor changes to the shooting format, we are confident that up to 72 shooters will be able to compete.

Days 1 and 2 – Team Match: Two person teams engage the course. Targets are set 800 m to 2 201 m and shot from six different ranges over two days. Each range consists of three targets and each shooter will fire three shots at a target.

Shooters will be divided into two groups. On Day 1, Group 1 engages Ranges 1 to 3 while Group 2 shoots Ranges 4 to 6. On Day 2, the groups switch and complete the remaining ranges. Each match participant fires 27 shots a day for a total of 54 shots for the team match.

Scores from Days 1 and 2 will be added to determine the team winners. In addition, individual scores will be used to calculate an individual ranking table to decide qualifying shooters for the Top 21 Individual Final.

Day 3 – Top 21 Individual Final: The Top 21 individual shooters (as per the cumulative scores achieved on Days 1 and 2) will be divided into three groups.

Each group engages three predetermined ranges (with three targets per range), rotating through the course of fire. Shooters engage the targets without the assistance of a team member or spotter and fire an additional 27 rounds. Scores from Days 1, 2 and the final (Day 3) will be added to determine the individual shooter ranking.

The above format will provide a very competitive, widely attended, and testing three-day ELR match, where the top performers fire a total of 81 shots at distances up to 2 201 m to determine the **ULTRA** winner.

We look forward to hosting you and invite ELR shooters from across the country to attend.

Send IT 2-Mile Challenge Series, 2024

The Send IT, ELR Shooting 2-Mile Challenge Series will be held at Matroosbergstasieskietklub at De Doorns in the Western Cape. The series is sponsored by Boomsticks, local distributor of Cutting Edge Bullets. The series consists of four 2-Mile Challenge qualifying matches, from which an individual shooter’s two best scores will be used to calculate a year-to-date ranking table.

The range is eight targets set 1 500 m to 4 000 m. At the qualifying matches,

the range has four pre-selected targets for a total of 20 shots (five per target). However, the series finale comprises eight targets for a total of 40 shots (five per target).

The final 2-Mile Challenge event is exclusively for the top 15 shooters, as per the ranking table, consisting of a higher round count and additional targets for a challenging season finale. Individual shooter’s top two scores (50%) and final score (50%) will be used to calculate the overall series rankings and winner.

We promise that 2024 will be a humdinger. However, you will be amazed at the record-breaking achievements of Send IT shooters in 2023!

Send IT .22LR ELR PEKS Shooting Range: Four ranges, three targets each, 153 m to 424 m

Rimfire (.22LR) ELR has gained tremendous interest from the sports-shooting community as it is exciting, challenging, and accessible to a broad range of shooters. We regularly host up to 40 shooters and ten to 15 juniors. These matches are a learning platform where newcomers and their families can become familiar with the technical aspects of ELR shooting in a safe, secure, and inviting environment.

📍 Pieter Eksteen – ULTRA 2023

James Preyser – ULTRA 2023

Paul van Gass – PEKS 22LR 2 Sep 2023

DJ van Zyl – ULTRA 2023

Juniors joining in – PEKS 22LR 2 Sep 2023

At the match on 2 September, Paul van Gass took gold with 37 impacts (a record) and a perfect score on the second range (another record) that included five out of five hits on the 346 m and 393 m targets on Range 2. In addition, Paul followed on with a first and second round impact on the 424 m target (Range 3) and a fifth-round impact at 424 m on Range 1.

As an avid rimfire enthusiast, Paul has consistently improved match after match, and is the proud title holder of the highest score and most hits achieved at a Send IT .22LR ELR match to date. A marvellous performance and a well-deserved win that he can be proud of! All match data was

submitted to SFT and we eagerly await the details to see where these fantastic results rank when its global rimfire ELR ranking table is released. Hopefully it will be available soon.

**Send IT 2-Mile Challenge
Matroosbergstasie
Skietklub: Four targets,
2 017 m to 3 270 m**

Send IT hosted three 2-Mile Challenges in 2023. On two occasions the weather played ball. However, the third match in July was a washout, with rain, snow, gale force winds, and icy temperatures making it unbearable to shoot.

We were delighted with the results achieved by a relatively small group of shooters, especially those classified as 'light' guns (.338 and smaller). These firearms are tackling distances much further than their intended use. A testament to the spirit of Send IT shooters, giving it a go against the odds and delivering the results!

Standout performances were Gerhard Haasbroek (300 PRC) with three consecutive impacts at 2 700 m, Pieter Swart (338 LM) with two successful shots at 2 681 m and Selma van der Berg (300 PRC) with three hits at 2 485 m. All attempts from a five-shot string.

EXPAND YOUR LIMITS

We contacted Brian Wink to mine SFT's data for the longest hit achieved with a 300 Norma Magnum during an ELR match. Brian confirmed that John's hit at 3 576 yd (3 270 m) is currently, to our knowledge, the furthest successful impact in the world using a 300 Norma Magnum rifle during an ELR match. What a fantastic accolade!

In the first two matches, the two-mile target was hit eight times. Shooters making impact at this distance for the first time were Bernard Kotze (33 XC), Deon Fabel (338 LM AI), John Justus (300 NM Improved), James Preysler (375 CT), Izak Hanekom (375 ST) and Michael Hitchcock (338 LM AI). What an achievement!

However, the most impressive statistic goes to John Justus and will forever be written in the history books. On 20 May, using his trusted 300 Norma Magnum rifle, firing 245 gr Berger bullets, John made impact on every target (2 017 m/2 206 yd, 2 485 m/2 718 yd, 2 681 m/2 932 yd and 3 270 m/3 576 yd), including the two-mile target, to take home the gold medal.

**Send IT, ELR Shooting
– ELR Match
Darling Steel Valley: Four
ranges, three targets each,
1 258 m to 1857 m**

The first Send IT, ELR Shooting match was held on 6 July 2019. On that day, a wicked storm engulfed the West Coast and smothered the range in a cloud of mist, rain, and gale force winds. It was a terrible day for shooting, but 26 shooters left the range smiling, knowing they were on to something new.

Today we regularly host up to 48 shooters (the maximum number of competitors that can be accommodated) and, given the popularity of the match, entries are sold out within a short time.

Given the longevity of data, we can review the history and progress at the range.

The table below provides an analysis of the top three individual shooters at each match and their hit percentages.

Shooters compete as individuals and teams. However, team analysis is cumbersome as partners frequently change.

What can we learn from the data?

To date, 14 matches have been held and 42 individual medals (gold, silver, and bronze) handed out. Over this period, 17 individuals received medals,

Individual medals from 14 matches	
Pieter Eksteen	8
DJ v Zyl	6
Charl Gous	5
Bernard Eksteen	4
Bernard Kotze	3
Ivan Fourie	2
Danie du Preez	2
Herman Maree	2
Michael Hitchcock	2

Loutjie Hanekom	1
Nico Louw	1
Pieter Swart	1
Thinus van Zyl	1
Tony Ingram	1
Wayne Bird	1
42	

with nine shooters on the podium more than once and five shooters winning more than three medals. A surprisingly narrow result and clear indication of a group of shooters that consistently perform well.

The lowest winning hit percentage is 42% and the highest 79%. Leading up to the 4 November match, two shooters achieved a remarkable 75% hit rate: Bernard Eksteen in 2021 and Bernard Kotze in 2022.

However, at the final 2023 match, Herman Maree took gold with an astounding 79% hit rate, a new course record. Hot on his heels was Pieter Eksteen (also a 79% hit rate). However, Pieter had to settle for silver as Herman made more impacts on the farther targets.

Furthermore, we can see how the hit percentages progressively improved over time as shooters became more familiar with making impact at far distances. Equipment upgrades are visible at every match, an additional driver of better results, as well as the impact of the weather conditions on the day.

The most successful shooter to date – Pieter Eksteen, with eight podium finishes out of 14 matches – has won twice, been runner-up three times and had to settle for third position on three occasions. ‘Oom Piet’ is always in the mix and makes the rest of the shooters work hard for their medals.

**Send IT, ELR Shooting – ULTRA
Karoo King of the Plains
Shooting Range: Four
ranges, three targets each,
900 m to 2 201 m**

The Send IT ULTRA event was established as our annual flagship match to attract ELR shooters from across the country. In 2023, 46 shooters took part. The beautiful venue is a few kilometres outside the small town of Hanover in the Northern Cape and accessible from all corners of South Africa within half a day’s drive. It is the ideal location for a centrally located, competitive multi-day ELR match.

The Send IT ULTRA (2022 and 2023) format was unique in that shooters engaged multiple targets across four ranges, with a relatively high round count over two days. In this environment, shooters get to shoot more and are exposed to the same atmospheric conditions as their fellow competitors.

On Day 2 of the 2023 Send IT ULTRA, 'Oom Piet' was in the mood to hit steel and recorded the highest daily score with 22 impacts (out of 28 shots), the best daily score achieved in both the 2022 and 2023 ULTRA event.

Pieter Eksteen won the two-day ULTRA match with his remarkable 73% hit rate (over two days). Pieter placed fourth on Day 1 and leapfrogged the competitors with a fantastic performance on Day 2. He won the individual category in 2022 and successfully defended the title in 2023.

Other notable performances were James Preyser (third, 70% hit rate), Izak Hanekom (fourth, 63%) and Warwick du Preez (fifth, 61%). These shooters have shown incredible growth over the last couple of years and are in contention at every match.

Incredibly, all the way down to 19th position, the hit rate was more than 50%, displaying the depth and quality of the shooters competing. In the team division, Team AVO (Danie du Preez and DJ van Zyl, 63%) achieved another podium finish in 2023 (silver) after being the top performing team at ULTRA 2022.

As we look back on 2023, there is plenty to highlight, but most importantly the people.

The people who put in all the hard work to prepare our ranges: Hendrie Brink (Darling Steel Valley), Pieter Eksteen (PEKS Shooting Range), PC Ferreira (Karoo King of Plains Shooting Range), and Estian du Preez (Matroosbergstasie Skietklub). We thank you for your efforts and for making your facilities available for all to enjoy.

The people and businesses that support Send IT and provide lucky draws and prizes at our matches. Thank you for your support and generous contributions.

The people who help grow sports-shooting and afford fellow firearm enthusiasts a public platform to read and learn about shootings formats.

Thank you to *On Target Africa* magazine and Louise Taylor for her tireless efforts to promote and grow the sport.

The people who come out to enjoy the day with Send IT and, more importantly, bring their wives, daughters, and sons to experience ELR shooting, a growing and welcome trend. Thank you. To those who travelled hundreds and in some instances thousands of kilometres to take part, your support is immensely appreciated. Thank you for embracing the Send IT vibe of having fun, sharing information, and assisting fellow shooters.

Ultimately, it is all about the people. We strive to bring people together with the same goals, interests, and attitude: To grow and support ELR shooting and to create an environment where you can unwind and enjoy your hobby.

**Until next time,
get ready to
Send IT**

Send IT, ELR Shooting ELR Match at Darling Steel Valley: 30 September

Match day arrived with cold and windy conditions, not what is expected at the start of the Cape Town summer! The start of the match was delayed due to heavy and persistent rain, providing a difficult backdrop to spot missed shots in wet vegetation.

Competitors had to navigate very difficult and unpredictable winds that continuously shifted direction and varied in speed. It was a day where every hit was celebrated!

Continues on next page.

Continues from previous page.

Tallying up the results, the top five shooters all achieved a very good success rate of 57%, with only the distance of the targets hit separating the outcome.

However, it was Ivan Fourie at the top of the leader board, securing 1st place individual with 16 impacts, followed by

Hendrie Brink – 30th September 2023

Kevin Kriel – 30th September 2023

DJ van Zyl in 2nd and Ivan's teammate Bernard Kotze in 3rd. Unsurprisingly, Team 3% Tactical (Ivan Fourie and Bernard Kotze) took gold in the team division with another consistent performance. The record-breaking and ever-present father and son team Weekend Warriors (Bernard and Pieter Eksteen) secured second place, followed by team Avo (Danie du Preez and DJ van Zyl).

A young shooter to highlight, 13-year-old Carlo Gous, managed to finish 8th overall using his brand new 300 Norma Magnum rifle built by Ralph Badenhorst Bespoke Rifles & Gunsmithing. Was it not for his father's poor wind calls, he could have received his first Send IT medal.

sealed the deal. In addition, DJ van Zyl's very credible 71% hit rate secured him a bronze medal and kept him on the podium for two consecutive Send IT ELR matches. All the way down to 12th position, shooters achieved a hit rate of more than 50%, with several shooters achieving hit rates above 60%. An excellent display by all the top shooters, adding credibility to the very good results achieved. It is heartwarming to see young shooters grow in the sport, receive well-deserved

recognition, and enjoy the day with their dads. In this regard, two father-and-son teams put in solid scores to secure 1st and 2nd positions in the team division, making for lovely memories. Familiar podium contenders Weekend Warriors (Bernard and Pieter Eksteen) secured gold while team Sonic (Carlo and Charl Gous) settled for silver. Thirteen-year-old Carlo Gous achieved another noteworthy result and is now the youngest shooter to hold a Send IT

medal. The final podium position went to Team Noodhulp Topgun (Herman Maree and James Preyser). That brings an end to Send IT's 2023 activities. Time to clean rifles and load up as we move into an even busier ELR season in 2024!

WANT TO SHOOT BETTER? HERE'S

THE ULTIMATE LOW DRAG, HIGH PERFORMANCE MATCH BULLET.

TIP DESIGN

Aluminum tip is precision machined and longer than polymer tips which moves the center of gravity and enhances inflight stability.

PERFORMANCE

Doppler radar verified low drag coefficient (high BC) bullets are forgiving of twist rate, seating depth and muzzle velocity.

MANUFACTURING

Minimal handling throughout the manufacturing process ensures consistency from bullet to bullet.

Available at all participating dealers. Contact Inyathi to locate your nearest dealer.
